# Hughes And Fairbanks Ticket Of Republicans

Silent Justice Named on Third Ballot Favorite Sons Soon Drop Out-Delegates Then Flock to New Yorker, Making it Almost Unanimous.

Chicgo, June 10 .- The Republican national convention today nominated Charles Evans Hughes of New York and Charles W. Fairbanks of Indiana, as the candidates of their party for president and vice president.

Almost at the same moment Theodere Roosevelt was nominated by the national Progressive convention, and later in the day John M. Parker of Louisiana, was named as running

The Republican nomination required a ballot, the third of the convention, while the Progressive nomination was made by acclamation.

Mr. Roosevelt's provisional declination to accept the Progressive nomination is believed by the politically wise to leave the door ajar, if not wide open, for eventual withdrawal of the third ticket in the event Mr. Hughes' position on what the Progressives feel to be the vital issues of the campaign meet their approval. To this extent, at least, the leaders in both parties feel that the efforts at harmony, even if not directly fruitful of result, may yet be realized.

THE COURT OF GENERAL SESSIONS STARTS WORK

Judge Gary Presiding-The Burton Case Continued to November Term-Other Cases.

The court of general sessions convened Monday morning with Judge Frank B. Gary presiding. The morning session was taken up by the judge's charge to the grand jury and other routine business. At the noon hour the grand jury had reported true bills in two or three cases, among them being the State against S. C. Harris charged with murder and the State against Tom Dean changed with larceny of live stock. The case against Mary Worthy charged with arson was set for trial Tuesday afternoon at 3 o'clock.

The case against I. O. Burton for the murder of David A. Langford was postponed until the November term of court. B. V. Chapman one of the lawyers for the defense presented the petition for a continuance on the ground that Solicitor Timmerman who is also one of the defendant's counsel was unable to be present on account of his official duties in the Lexington county court which is now in session. Judge Gary said that as a rule he was opposed to granting continuances but under the circumstances concerning defendant's counsel and the further fact that he was related to the wife of the deceased, D. A. Lagford, he would grant the petition and continue the case until the fall term of court.

S. C. Harris, charged with murder, was tried Monday afternoon and acquitted. The hearing consumed about one hour an dthe jury was out only a few minutes. Harris was defend-

#### DREADFUL COLLISION OF MOTORCYCLE AND BICYCLE

Scene, Folk's Hill Near Pomaria-Injured, Geo. Amick and Richard Hipp.

'Folks hill just beyond Pomaria was the scene late last Friday afternoon of a very serious accident when there was a collision between a bicycle rider and a motorcycle rider. The rider of the bicycle was Richard Hipp, Jr., son of Mr. Richard H. Hirp, a prominent merchant of Pomaria. Young Hipp is about 15 years of age. The rider of the motorcycle was Mr. George Amick who does a blacksmith business at Pomaria. Young Hipp was coming down the hill at some speed and on the left nand side of the road and Mr. Amick was making high speed on the same side of the road with his motorcycle in order to negotiate the hill.

Folks hill is a long, winding, and in some places, a very steep hill and high speed is absolutely necessary if one is riding a single geared motorevele. Mr. Amick says that young Hipp seemed to lose control of his bicycle and began to dodge about across the road as he approached. Mr. Amick not knowing which side of the road young Hipp was going to take, began to cut his wheel about in an effort to miss the oncoming bicycle. Mr. Amick says the next thing he knew, he was lying in the drug store receiving medical attention.

It seems that Mr. Amick's children witnessed the accident and ran for help. Mr. Adam L. Aull was the first to reach the injured parties. He left immediately in his car and reached the injured men in 49 minutes after the message reached

## NEW MACHINERY AT THE NEWBERRY COCA-COLA PLANT

The Newberry Bottling plant for the Coca-Cola products has recently installed a new machine which insures sanitary bottling of the product of the plant. The bottles first pass through a solution of caustic soda and then they are re-washed and brushed in pure water. Then the bottles are rinsed four times inside and out and conveyed to the bottler. The main point of this story is that the new machine which has been installed insures a clean and sanitary bottle before the Coca-Cola is put in it, and when you drink bottled Coca-Cola with the name of the Newberry bottling plant on it you are sure that you are drinking a purely sanitary drink. Capt. Langford says that coca drinks may come and they may go but that Coca-Cola will sell on forever, and especially when the drinking public knows that it is sanitary in its putting up. That is what the Newberry plant assures you.

## THE GREENWOOD BRAND

In the Greenwood Index of the date of June 1 appears an advertisement occupying a column of space, the words of which follow:

Quality First You Are Sure of Getting The Best Grade of Cotton Goods When You Call For Greenwood-Made Goods. Greenwood Cotton Mills, Grendel and Ninety-Six Cotton Mills.

This advertisement directs the at-

tention of the readers of The Index to the fact that cloth manufactured in Greenwood county of cotton grown Mrs. P. C. Singley spent Wednesday by Greenwood county farmers is intended for them to wear, and it is one of the first evidences that we have observed of a disposition on the part of South Carolina cotton mills to impress their own neighbors that they are producing a commodity for others than the inhabitants of Han-Dr. Godfrey Harmon has gone to kow, Timbuctoo and Chicago. It tells a story of mutuality of interest between the manufacturers and the farmers of Greenwood which involves, of course, the interest of bankers, merchants and all other citizens. The man who wears a Greenwood county shirt and the woman who wears a Greenwood county shirtwaist will have a pride in the "home" factories that make the cloth while with Miss Helen Sease of Clem- and will not feel that they are foreign establishments set among them for the sole object of getting what

These mills of Greenwood county doubtless manufacture more cotton cloth than all the people of the county use, but that does not take from the value of the fact that a Greenwood man with a Greenwood shirt on his back is likely to have a better feeling for the cotton mill than he would otherwise entertain.

These manufacturers of Greenwood are doing an excellent thing for themselves when they advertise their partnership with their own people. By the way, it is common knowledge that everything with the Greenwood brand wears well, so on general prin-Hon. R. A. Cooper of Laurens will ciples what the advertisement says of the quality of the cotton goods may be safely taken as true .- The State.

We quote the above just to let our people see how a live town like Greenwood appreciates the value of Mrs. Wilson of Columbia is the newspaper space, and how they show their appreciation of it by using it. If any of the Newberry papers should happen to get out a special edition the cotton mills are generally very nice to give them an ad, but when they do it they do it with a feeling that they are making a contribution to help the newspaper get out the

Wonder what President Wright would say if one of the newspaper were to approach him in regard to carrying a regular ad of the goods he manufactures. And yet it would be a good thing for him and the other mill officials to do, and thus help to encourage the use of home manufactured goods.

But best of all, this advertisement in the Greenwood Index to which the State refers, shows that the people of Greenwood have the spirit of sticking to their own enterprises and believe in the spirit of cooperation. That is what makes a town grow. Newberry is a good town. We have as good people as the world can provide. Wa need just a little bit of the spirit of progress and that spirit which actwates us to work together for the general welfare.

Just this little advertisement of the cotton mills in the Greenwood paper has given the town an advertisement in the editorial columns of the State and has given it a reproduction in The Herald and News. And frequently the public spirit of the town of Greenwood is pointed to as an example by the papers published in other towns and thus the town of Greenwood is advertised and adver-
